

## **REMARKS**

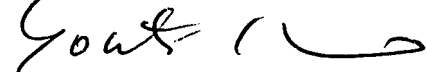

The above amendment is submitted for responding to the Office Action of June 22, 2007. The applicant appreciated the Examiner's directions for overcoming the double patenting and for allowable subject matter. Accordingly, in this amendment paper the original claims in the application are amended and a complete listing of the amended claims is presented in ascending numerical order.

As shown in "Amendments to the Claims", the currently amended claim 1 is a revision of the original claim 1 in including the limitations of the original dependent claims 2, 5, 7 and 9.

Currently amended claims 2 to 8 are based on the currently amended claim 1. The original claims 2-7, 9-10, 13 and 19- 21 are canceled. The original claims 22-23 remain in the list but with newly assigned claim numbers.

Favorable reconsideration and allowance are respectfully requested.

Respectfully submitted,

7/5/07
